

I Say Yes

J Sutta

I say, I say yes
Even when the world says no
I say, I say yes
When you're high, and when you're low
When you're high, and when you're low
When you're high, and when you're low
I say, I say yes
When you've got nowhere to go
I say, I say yes

When the world falls down around ya
And when those dark clouds surround ya
When the water tries to drown ya
Yeah I say, I say yes
There's no limit to what I'll do

I feel your energy
You're gone it's killing me
And all your enemies
Become my enemies
That means all your issues
Become my issues
Long as I'm with you
I'll never forget you

I say, I say yes
Even when the world says no
I say, I say yes
When you're high, and when you're low
When you're high, and when you're low
When you're high, and when you're low
I say, I say yes
When you've got nowhere to go
I say, I say yes

When the world falls down around ya
And when those dark clouds surround ya
When the water tries to drown ya
Yeah I say, I say yes
There's no limit to what I'll do
To what I'll do

I say, I say yes
Even when the world says no
I say, I say yes
When you're high, and when you're low
I say, I say yes
Even when the world says no
I say, I say yes
When you've got nowhere to go
I say, I say yes

I feel your energy
You're gone it's killing me
And all your enemies
Become my enemies
That means all your issues

Become my issues
Long as I'm with you
I'll never forget you

I say, I say yes
