

Inches Away

J Sutta

Now that you're inches away from me
You ain't got nothing to say to me
I was here loving you faithfully
You ain't do nothing but play with me
Inches away from me
I can't believe the devil's right here
Inches away from me, no no no no no
Face to face with my deepest fear, oh
Inches away

Perfect disguise, flawless design
Effortlessly controlled my mind
You sure pulled a fast one this time
Oh, Prince of Darkness, how you shine, yeah

Now that you're inches away from me
You ain't got nothing to say to me
I was here loving you faithfully
You ain't do nothing but play with me
Inches away from me
(I can't believe the devil's right here)
I can't believe the devil's right here
Inches away from me, no no no no no
Face to face with my deepest fear, oh
Inches away

With nothing to say, now
You're just inches away
I can't believe the devil's right here (right here)

Electric stare, they hypnotize
Love just ain't fair, especially when you're blind
Can't even [?]
Heartbreak's a, a reminder
That you hold no heart in your insides
No, no

Now that you're inches away from me
You ain't got nothing to say to me
I was here loving you faithfully
You ain't do nothing but play with me
Inches away from me
(I can't believe the devil's right here)
I can't believe the devil's right here
Inches away from me, no no no no no
Face to face with my deepest fear, oh
Inches away

With nothing to say, now
You're just inches away
I can't believe the devil's right here (right here)
(Turn the lights on!)
