

## Willing to Beg

J Sutta

Ooh, you're just my type  
The kind that don't be playin' 'round  
I'd love to pick you up sometime  
And maybe lay you down

I know you hear this often  
So why you trippin', babe?  
But I can introduce your body  
To some different things

See, my mission is to please  
And I won't leave  
Till my mission is complete  
I wanna give you every reason  
To get down on your knees  
Oh, lose yourself until  
You can find yourself with me  
Oh, baby, please

I want you to act just like  
You need me  
So much  
That you're willing to beg, yeah  
'Cause baby, right now I'm feelin'  
So much  
That I'm willin' to beg

Want you to need me  
Like I need your body, babe  
Ooh, I just want you to beg for it  
Want your body  
I hope you want mine

Ooh, I just want you to beg for it  
Before we get into bed  
I hope you're willing to beg  
Ooh, I just want you to beg for it  
Beg for it, yeah  
Hope you're willing to beg  
Ooh, I just want you to beg for it  
Before we get into bed

Wishin' I was kissin' you  
And playin' at your hair  
I've been thinkin' 'bout positions  
The whole time you're sittin' there  
Oh, can we put that in motion?  
Baby, can we? Baby, can we?  
'Cause what you're workin'  
When I'm thinkin'  
Man, that shit ain't fair

See, my mission is to please  
And I won't leave  
Till my mission is complete  
I wanna give you every reason  
To get down on your knees

Oh, lose yourself until  
You can find yourself with me  
Oh, baby, please

I want you to act just like  
You need me  
So much  
That you're willing to beg, yeah  
'Cause baby, right now I'm feelin'  
So much  
That I'm willin' to beg

Want you to need me  
Like I need your body, babe  
Ooh, I just want you to beg for it  
Want your body  
I hope you want mine

Ooh, I just want you to beg for it  
Before we get into bed  
I hope you're willing to beg  
Ooh, I just want you to beg for it  
Beg for it, yeah  
Hope you're willing to beg  
Ooh, I just want you to beg for it  
Before we get into bed  
I hope you're willin' to beg

I hope you're willin' to beg

I hope you're willin' to beg
