

# Almost Over You

Jessie James Decker

I should get gone  
I shoulda smiled and walked on by  
All the smoke and the neon  
Ain't bright enough to hide your eyes

I wasn't lookin' for love  
I was lookin' for a nightcap  
I was about to head home  
'Til you walked in lookin' like that  
Now we're dancing real close  
With your hands on my back  
Oh, you got the same kinda something  
You always used to

I was almost over you  
Wasn't thinking 'bout you at all  
Now it's like all I can do  
Is hold on 'til the last call  
you come home with me  
And stay the whole night through  
Maybe longer if you do  
I was almost over you

This should feel wrong  
I miss the perfume in your hair  
Are you leading me on?  
Would you really even care?  
No

I wasn't lookin' for love  
I was getting on the right track  
I was about to head home  
'Til you started talkin' to me like that  
And now you're kissing me slow  
With your hands on my back  
Oh, feels like we're falling in something  
Just like we used to

I was almost over you  
Wasn't thinking 'bout you at all  
Now it's like all I can do  
Is hold on 'til the last call  
you come home with me  
And stay the whole night through  
Maybe longer if you do  
I was almost over you

You  
You  
I was almost over you  
You

I was almost over you  
Wasn't thinking 'bout you at all  
Now it's like all I can do  
Is hold on 'til the last call  
you come home with me

And stay the whole night through  
Maybe longer if you do  
I was almost over you

You  
You  
I was almost over you  
Ooo Yea
