

Step into My Life

Jessie Ware

Look into my eyes
When we're together, ain't nothin' better
So I'm gonna get ya
But are you worth my while
Or are you playing?
That's the question I keep asking myself

But it feels so right
When I feel your eyes
Maybe for tonight
Can I feel your body?
Baby, that's enough
(Now's the time to step into my life)
Ooh
And it feels so right
When you catch my eyes
Maybe for tonight
Would you catch my body?
Don't be scared to touch
(Now's the time to step into my life)

Give into me
Show what you're feeling
In harmony
Show me you need me, boy

You got my attention
No complications
I just wanna get to know ya
I don't wanna talk
No conversation
I'm tired of wanting more
More of your love

But it feels so right
When I feel your eyes
Maybe for tonight
Can I feel your body?
Baby, that's enough
(Now's the time to step into my life)
Ooh
And it feels so right
When you catch my eyes
Maybe for tonight
Would you catch my body?
Don't be scared to touch
(Now's the time to step into my life)

Give into me
Show what you're feeling
In harmony
Show me you need me, boy
Give into me
Show what you're feeling
In harmony
Show me you need me, boy
Give into me

Show what you're feeling
In harmony
Show me you need me, boy (Now's the)
Give into me (Time to step in)
Show what you're feeling (To my life)
In harmony
Show me you need me, boy

Give into me
Show what you're feeling
In harmony
Show me you need me, boy (Now's the)
Give into me (Time to step in)
Show what you're feeling (To my life)
In harmony
Show me you need me, boy (Now's the)
(Time to step into my life)
(Now's the time to step into my life)
