

# The Kill

Jessie Ware

You tell me I should run  
But then you tell me you need me  
A lot of places to hide  
So there's no way you can see me

I wanna swallow my pride  
But I choke on my own words  
You wanna show me you love me  
But forget how to reach me

Tell me what you wanna know  
And I'll tell you everything inside  
I'll tell you that you were the one for me  
Don't try to kill me with your love  
Don't kill me with your love

What I don't understand is why I'm here on my own  
We were only just talking in the silence of your home  
I know you better than yourself, honey, only I know  
I follow you through the night like a dog with the scent of your cologne

Tell me what you wanna know  
And I'll tell you everything inside  
I'll tell you that you were the one for me  
Don't try to kill me with your love  
Don't kill me with your love

Tell me what you wanna know  
And I'll tell you everything inside  
I'll tell you that you were the one for me  
Don't try to kill me with your love  
Don't kill me with your love

I've been waiting my whole life  
For someone who makes me feel like you do  
It's complicated, I can't lie to you  
I've been waiting my whole life  
For someone who makes me feel like you do  
It's complicated, I can't lie to you  
I've been waiting my whole life  
For someone who makes me feel like you do  
It's complicated, I can't lie to you  
I've been waiting my whole life  
For someone who makes me feel like you do  
It's complicated, I can't lie to you  
I've been waiting my whole life  
For someone who makes me feel like you do  
It's complicated, I can't lie to you
