

I'm breathing

Jet Black Stare

Riding high on an angel's wings
And the devil sings inside my head (ohh-oh ohh-oh)
All alone on a Friday night
With an empty bottle by my side (ohh-oh ohh-oh)
And now I'm looking for the reasons why I'm alive
And now I've finally come to realize

I can't erase
This feeling I can't escape
And now I'm lying on the floor
And I really need to find the answers (ohh-oh ohh-oh)
Lying on the floor cause I've given every piece of me
And I'm Breathing

Now the lights are flashing
And I'm crashing to the other side (ohh-oh ohh-oh)
Need another time around
Get me off the ground
Give me one more try (ohh-oh ohh-oh)
And now I'm looking for the reasons why I'm alive
And now I've finally come to realize

I can't erase
This feeling I can't escape
And now I'm lying on the floor
And I really need to find the answers (ohh-oh ohh-oh)
Lying on the floor cause I've given every piece of me
And I'm Breathing

And they prayed for
Can he make it through?
I'm not leaving... I'm not leaving you

Riding high on an angel's wings
And the devil sings inside my head (ohh-oh ohh-oh)
Waking up from a dream I'm in
And the nurse walks in
She looks and says (ohh-oh ohh-oh)
Everything will work out right

I can't erase
This feeling I can't escape
And now I'm lying on the floor
And I really need to find the answers (ohh-oh ohh-oh)
Lying on the floor Cause I've given every piece of me
And I'm Breathing

I can't erase
This feeling I can't escape
And now I'm lying on the floor
And I really need to find the answers (ohh-oh ohh-oh)
Lying on the floor cause I've given every piece of me
AND I'M BREATHING
