## I'm breathing

Jet Black Stare

Riding high on an angel's wings And the devil sings inside my head (ohh-oh ohh-oh) All alone on a Friday night With an empty bottle by my side (ohh-oh ohh-oh) And now I'm looking for the reasons why I'm alive And now I've finally come to realize

I can't erase This feeling I can't escape And now I'm lying on the floor And I really need to find the answers (ohh-oh ohh-oh) Lying on the floor cause I've given every piece of me And I'm Breathing

Now the lights are flashing And I'm crashing to the other side (ohh-oh ohh-oh) Need another time around Get me off the ground Give me one more try (ohh-oh ohh-oh) And now I'm looking for the reasons why I'm alive And now I've finally come to realize

I can't erase This feeling I can't escape And now I'm lying on the floor And I really need to find the answers (ohh-oh ohh-oh) Lying on the floor cause I've given every piece of me And I'm Breathing

And they prayed for Can he make it through? I'm not leaving... I'm not leaving you

Riding high on an angel's wings And the devil sings inside my head (ohh-oh ohh-oh) Waking up from a dream I'm in And the nurse walks in She looks and says (ohh-oh ohh-oh) Everything will work out right

I can't erase This feeling I can't escape And now I'm lying on the floor And I really need to find the answers (ohh-oh ohh-oh) Lying on the floor Cause I've given every piece of me And I'm Breathing

I can't erase This feeling I can't escape And now I'm lying on the floor And I really need to find the answers (ohh-oh ohh-oh) Lying on the floor cause I've given every piece of me AND I'M BREATHING
