

Fast Trip Up

Jill Johnson

Ask me on a sunday
if I wanna go take a little drive
You know I want it honey
but I don't know if I'd make it out alive
You got the heat of the devil
and the eyes of a hurricane
You'd take me all the way to heaven
all I got to do step on the train

It's a fast trip up and a long fall down
It's a short lived love makes a heart break sound
When it his the ground
Leaves a girl laying there just looking around
From a fast trip up and a long fall down

Sounds really good when I hear it rolling of your lips
I but a guy like you can change as fast as a quarter flips
You might be unforgettable the kind of ride I'll never forget
But baby you could only be somebody that I'll always regret

It's a fast trip up and a long fall down
It's a short lived love makes a heart break sound
When it his the ground
Leaves a girl laying there just looking a round
From a fast trip up and a long fall down

t's a fast trip up and a long fall down
It's a short lived love makes a heart break sound
When it his the ground

It's a fast trip up and a long fall down
It's a short lived love makes a heart break sound
When it his the ground
Leaves a girl laying there just looking around
From a fast trip up and a long fall down

t's a fast trip up baby
and a long fall down
t's a fast trip up and a long fall down
t's a fast trip up and a long fall down
