

# Jacked Up Heart

Jill Johnson

Just another day on a backdirt road  
just another day gonna steel my soul  
just another day no backup plan  
just another day with a dead end man

Just another day on a nowhere road  
just another day trying to soothe my soul  
Just another day saying "never again"  
after just another night with that dead end man

That boy took my hand  
left me broke down where I stand  
left me with the keys to an empty car  
left me with this jacked up heart

Never gonna say - girl you should've run  
choking on dust, but it sure was fun  
took me for a ride in a one horse town  
If he's ever coming back, I'm gonna go another round

That boy took my hand  
left me broke down where I stand  
left me with the keys to an empty car  
left me with this jacked up heart

That boy took my hand  
left me broke down where I stand  
left me with the keys to an empty car  
left me with this jacked up heart

Side of the road, thumb in the wind  
Sun beating down, just ain't my friend  
Did a number on me, he did me in  
Never gonna be the same again  
oh

That boy took my hand  
left me broke down where I stand  
left me with the keys to an empty car  
left me with this jacked up heart

That boy took my hand  
left me broke down where I stand  
left me with the keys to an empty car  
left me with this jacked up heart
