

So Much Love To Make

Jill Johnson

So much love to make

So much love to make

So much love to make

Don't mind rain we'll make our own sunshine
Don't mind the phone,
Just ignore it we'll be better for it

We've been spending too much time
Punching keys and pushing papers
We come home late, we come home tired
And then we call it a night

We've got about a thousand kisse stacking up
Like dirty dishes that need to be done
And we've got fifty conversations like a pile of
Bills just waiting to be paid for once
I've got a list of things to do and it begins and
Ends with you
So let the whole world wait cause we've got so
Much love to make

First thing's first, pull the plug on that old alarm clock
Then put your arms around me, baby surround me

Never thought we'd have to plan for what's really
Most important
Can't afford to put this off so baby come on

Chorus

I'll just taste your beautiful lips and kiss your
Sweet sweet skin
Hanging on a moment while I breathe you in"

And we've got fifty conversations like a pile of
Bills just waiting to be paid for once
I've got a list of things to do and it begins and
Ends with you
So let the whole world wait cause we've got so
Much love to make

Chorus
