

Too Cool To Fall In Love

Jill Sobule

I caught you watching me, you thought I didn't see
By the way that you stared, I know there's something there
Your smile sometimes shows what you don't want me to know
There's a warmth inside you hide I can feel that would start a
flame
Your little secret stays with me, don't you know, I'll never gi
ve it away

Oh, you're too cool to fall in love, you're too cool to fall in
love
Only fools have open hearts, you're too cool

So distant, so free, pretending mystery
Calculating every move, tell me what you got to prove
It doesn't matter what we do, no one cares
So why you still playing safe and don't you know
I would give my heart and soul, I'm not the one who's afraid

Oh, you're too cool to fall in love, you're too cool to fall in
love
Only fools have open hearts, you're too cool

You don't have to act this way, whatcha got to lose
I would love to hear you say, I do love you

Oh, you're too cool to fall in love, you're too cool to fall in
love
Only fools have open hearts, you're too cool, you're too cool
