Gotta Have You

Jillian Edwards

At the end of the day All I want is you All I want is you And at the middle And the start Morning, light, and the dark I want you I want you And in the back of my mind The forefront and the side I want you I want you And I Gotta have you Gotta have you Gotta have you Gotta have you And I Gotta have you Gotta have you Gotta have you Gotta have you Ooh Ooh Ooh Make a map of my desires All roads lead to you All roads lead to you To the left and the right Forwards and turn around I find you I find you And I Gotta have you Gotta have you Gotta have you Gotta have you And I Gotta have you Gotta have you Gotta have you Gotta have you Ooh Ooh Ooh I can't find a safety like you I can't find a thrill That comes close to the way you move me I never will And I Gotta have you Gotta have you

Gotta have you Gotta have you And I Gotta have you Gotta have you Gotta have you
