

# Room

Jillian Edwards

With all of my heart  
I'm racing  
Watch the page as it turns out  
You would read all of me  
Had you the chance  
You'd never put me down  
Please don't put me down

Cover to cover  
I won't ever love another  
Oh, let me be the one that you would rediscover  
Over and over again  
'Cause I don't see no end  
To this stream of consciousness you're flowin' down in  
But I must reassure you  
I must testify  
I get a little bit restless, you just gotta give me time  
I get a little bit insecure  
A little bit bent  
I get a little bit everything, every now and then

But there's room  
For you here  
Oh, if you take it all  
Got so much room  
For you here  
Yes I pray you lay your head down here

So take it all, take it like you would your childhood  
The street you lived  
You ride your bike  
The whole world there inside your eyes  
I'll find the water's deep  
The river's wide  
I've got nothin' but time

And room  
For you here  
Oh if you take it all  
Got so much room  
For you here  
Yes I pray you lay your head down here

So I swear by my heart  
Make a promise that  
I've never been more sure of anything in my life  
As inconsistent as I have been  
This is steady and sure and clear as the wind  
That I see the other side of me in you  
That I've got nothing but room

For you here  
Oh if you take it, take it all  
Got so much room  
For you here  
Yes I pray you lay your head down here
