

# Songbird

Jillian Edwards

I want to be a songbird  
And I want to sit on the tallest branch of the tallest tree  
And I want to sing lullabies to Earth as she cries  
But I really want to try and make her laugh.  
I want to be a songbird

And I want to watch sunrise  
With my love by my side  
And I want to grow and I want to learn  
I want a fire and I want to burn  
I want to rise and I want to fall  
I want to run and I want to crawl.  
I want to be a songbird

And I just want to try to know how far and deep and wide  
This love is that you give cuz that's what it is to really live  
To just try and look around  
See when our breaths and hear you in our sounds  
I want to be a songbird

Go thru things that I need  
Make me hurt and make me bleed  
Cuz I will arise and see the light  
I'll pray my way through the night  
And I want to be a songbird

And I want to sing lullabies to Earth as she cries  
But I really want to try and make her laugh  
How you made me laugh  
You made me laugh. (2x)

Take the strings and the things I use to tie me to the ground  
Let them all be gone  
I want to be a songbird. (2x)
