

Beauty and Rage

Jim Cuddy

She said "Right, you better hold on tight
I don't wanna waste this day"
Tired of waitin' and no more playin'
I don't even know if I'll stay

So I just watch as she goes by
A lightning flash in the sky
And I just watch as she goes by

Ever other night she's round here
Singing like nobody needs any sleep
It's hard to get mad, it's not so bad
'Cause of love [?] it keeps

And I just watch as she goes by
I love that look in her eye
And I just watch as she goes by

Hey, you got to tell me some day
When you're away, where do you go?
(Where do you go?) Oh where do you go?
(Where do you go?)

(Hey, hey)

When she was young she was a real tough one
All beauty and rage
Now she gets bored, doesn't go anymore
It's time to turn that page

And I just watch as she goes by
Her smile lights up the sky
And I just watch as she goes by

Hey, you got to tell me some day
When you're away, where do you go?
(Where do you go?) Oh where do you go?
(Where do you go?)

Hey, you got to tell me some day
When you're away, where do you go?
(Where do you go?) Oh where do you go?
(Where do you go?)
