

Don't Know That Much

Jim Cuddy

Oh, they don't know that much about us now do they
Slow down let your feelings go
No point letting other people run the show
Oh, they don't know that much about us now do they
Close your eyes let the wind blow through your hair
There's no need for you to get so scared

Oh, they don't know that much about us now do they
Oh, they don't know that much about us now do they
