

# Every Beat

Jimmy Barnes

Oh darling  
I just got to let you know  
I just can't stand it  
When I have to let you go

If you only knew  
How I hunger for you  
With every beat of my heart

You call me on the phone  
Just to test my love  
But girl when I'm all alone  
You're the only one I'm thinking of

If you only know  
How I'm wishing for you  
With every beat of my heart

Love knows, love grows  
And love will show no fear  
So baby don't you cry or wonder why  
Let me wipe away your tears

I know it's true  
I want no one but you  
It's always been right  
From the start

If you only know  
I was wishing for you  
With every beat of my heart  
With every beat of my heart  
I wanna love ya with every beat of my heart
