

# Knock Me Down

Jimmy Barnes

I've stood alone against a lot of men  
I didn't care if there was one or ten  
They never knocked me down  
Makes no difference if you carry a gun  
Don't expect me just to turn and run  
Won't let you knock me down  
You can try to shoot me in the back  
Or can you just hold out for a heart attack  
But you won't knock me down  
My daddy taught me what was wrong and right  
If I believe, I'll always stand and fight  
Won't let you knock me down  
And if you wanna put me to the test

I'm gonna turn my cheek, you better do your best  
Won't let you knock me down  
I ain't the greatest fighting man alive  
But you can never take away my pride  
Won't let you knock me down  
I learned a lot of things when I was just at school  
I was never gonna be nobody's fool  
They thought that maybe time could open up my eyes  
And I've learnt to bend  
But boy were they surprised

You can beat me 'til I'm black and blue  
I'm gonna keep on coming, I might just bleed on you  
But you won't knock me down  
This is a simple choice of life and death  
One wrong move and you've got nothing left  
No you won't knock me down  
If you think that all I say ain't true  
You better keep on running cause I'm after you  
You'll never knock me down
