

## Right by Your Side

Jimmy Barnes

Hey, you stole my heart and now it's gone  
And I'll never win it back again  
Just when I thought I had it all  
Ain't it funny how some things end  
I've been so wrong, I cursed my pride  
I guess I'll think of you until I die  
When I think of times together I can face any kind of weather  
That's enough girl to last a lifetime  
Always want to be right by your side

I gave my love but now it's gone  
Now there's nothing left but to pretend  
You know I've known it all along  
That our love would someday end  
It's been so long, since I cried

Still I'll think of you until I die  
There's not a moment in the day  
That my broken heart don't feel this way  
I just can't give up the fight, my love, it don't feel right

When I think of times together  
I can face any kind of weather  
You and I had real big plans now  
Made me feel like a lovin' man  
Should had thought it would last forever  
All we've got is what we remember  
That's enough girl to last a lifetime  
Always want to be right by your side
