

# Stand Up

Jimmy Barnes

Spent your life on the fence  
And wonder where the time went  
From the time you were born  
You always did what you? ve told  
When you? ve gone there? s nothing you leave behind Always easy  
to please  
Never get off your knees  
Give and you will receive  
Just like a kick in the teeth  
How long can you just turn the other cheek Tell me what you? ve  
got to lose  
There? s just so much you can do Stand up, one shot can make a  
nation cry  
One voice can make them wonder why  
One spark can make a fire burn  
One lesson everybody must learn You gotta search for the truth  
It? s just so easy to lose  
When there? s so many lies  
That find a way to get through  
I know the future is in your hands  
Don? t hide your head in your hands  
There? s just so much you can stand Who? s gonna answer your pr  
ayers  
When you are no longer there  
If you? re looking for signs  
You must be crazy or blind  
I know the future is in your hands Tell me what you gotta lose  
There? s so much more you can do
