

You Can't Make Love Without A Soul

Jimmy Barnes

Before I lose my way I'm going home
The longer I stay with you
The more I feel alone
Before I leave I think that there is
Something you should know
You can't make love without a soul

No love, no soul

If you wanna make love, love, love
You've got to have soul

Make love and you might make a friend for life
But you can have a million bucks
And still not get it right
If life's an education
Then I think you should be told
You can't make love without a soul

You can't make love, if you don't believe in it
Can't make love, if you keep leaving it
Up to someone else to take control for you

I said you've got to make love, love, love
You've got to have soul

Love will make you beautiful
Love will make you whole
Use this information and
then watch your life unfold
You can't make love
You can't make love
You can't make love without a soul
