

# Love Again

Jimmy Cliff

Love, love again brotherman  
Love, love again sisterwoman  
Love, love again little ones  
I know you might think it's outdated,  
But it never can be duplicated  
Many times seems complicated,  
But it never can be duplicated  
Sing it out and it's music,  
Sound so sweet you got to repeat

Love, love again brotherman  
Say love, love again sisterwoman  
Say, say, love, love again little ones  
As pure as it came through the ages,  
Given to man in its stages  
For the unity of humanity,  
In a this time of vanity  
Say it our and it's miracle,  
Feel so sweet you got to repeat

Love, love again brotherman  
Love, love again little ones  
So now that we see what I'm saying!  
And now that you know that it's true  
And now that the action's been taken  
And all the walls have been shaken, shaken down

Say love, love again brotherman  
Love, love again sisterwoman  
Love, love again little ones  
Say it confidently, passionately, universally  
Love, love again brotherman  
Love, love again sisterwoman  
Love, love again little ones  
Chant it out now!  
Love, love, again  
Love, love, again
