

# She Is a Woman

Jimmy Cliff

She is a woman, come take my hand  
She is a woman, so true and so free  
She is a woman, ideal for me  
And you know, it's true, true, true  
And you know, it's true, true, true

She can take the light out of the day  
And paint a dark night bright  
She can ease your pain when you feel insane  
And make you feel all right  
She can shower you with love power, yea, yea  
Be a mother like no other  
Even when there is no father

She is a woman, woman so strong  
She is a woman, come take my hand  
She is a woman, so true and so free  
She is a woman, ideal for me  
And you know, it's true, true, true  
And you know, it's true, true, true

It's the man inside me, see the woman in you  
It's the woman inside you, see the man in me  
Alone we're strong, but together we can't go wrong  
So come and take my hand  
And if it's cloudy or it's grey, yea, yea  
We can make it all OK  
And smile the tears away

She is a woman, woman so strong  
She is a woman, come take my hand  
She is a woman, so true and so free  
She is a woman, ideal for me  
And you know, it's true, true, true  
And you know, it's true, true, true

She's a woman in the morning, in the evening, anytime at all  
In the bedroom, in the livingroom, in the kitchen...
