

# She Was So Right For Me

Jimmy Cliff

She was so right for me  
She was so right for me  
She was so right for me  
And I know, oh I know

Met her in the winter of my life  
Thought that I'd make her my wife  
But I didn't let the lady know  
Just how much I love her so

So many people just don't understand  
They want to say our love is so wrong  
It's never too late for a shower of rain  
I'll go back and start all over again

Because she was so right for me  
She was so right for me  
She was so right for me  
And I know, oh I know

So right when I am with her  
There is so much confidence  
Ooh, sometimes I miss her  
Unforgettable experience

So many people just don't understand  
They want to say our love is so wrong  
But it's never too late for a shower of rain  
Yes I'll go back and start all over again

Because she was so right for me  
She was so right for me  
She was so right for me  
And I know, oh I know

No use to regret now  
Divine love you don't forget now  
'Cause I know the love we shared  
Was beyond the earthly atmosphere

She was a lover, a mother and a friend  
Love like this could just never end  
Still so many people just don't understand  
They want to say our love is so wrong

But I know that she was so right for me  
She was so right for me  
She was so right for me  
I know, oh I know

But I keep on telling you  
You darling can't you see?  
You was so right for me  
You darling can't you see?

You was so right for me  
You darling can't you see?

You was so right for me  
You darling can't you see?
