

I Believed

Jimmy Nail

I believed all the things you said

So I laid my weary head
And as the dawn began the day
All we had was swept away

Because I believed

And you believed that the world was
Yours you were waiting fr applause
But the people ll said no
And as you came, so did you go

I believed
I believed

Oh, you fools
You broke all the rles
And now you have to pay

They believed that a change would come
That one day 'thy will be down'
An behold, it came to pass
That the free were free at last

Because I believed
I believed
