

Something That We Had

Jimmy Nail

On a day like today I could blow my cares away
Not a sign of a cloud to make me blue
But then you said goodbye, took the sun out of my sky
When you told me that you and me were through

Catch a falling star, fall down from above
Put it where you are, wrap it up in love

On a day like today I could blow my cares away
Not a sign of a cloud above my head
But then you said goodbye, took the sun out of my sky
When you told me of something that you'd said

Take me as I am, it's all I have to give
Give you all I have, for all the days I live

On a day like today, I could blow my cares away
Not a sign of a cloud to make me sad
But then you said goodbye, took the sun out of my sky
When you walked away from something that we had
