

Just Knowing You Love Me

Jimmy Wayne

It's hard to survive in these troubled times
Lord knows I've seen some
And there have been days when I couldn't say
Where the next dollars coming from
But there's a better day tomorrow
I can see, just knowing you love me

Knowing that's never going to change
That's what keeps me going
Knowing I can just call your name
and your arms will open
Its all the strength I need,
just knowing you love me

In this world sometimes it feels like no one can measure up
So you keep doing more and you still fall short
Never quite good enough
But I get a sense of who I can truly be
just knowing you love me

Knowing that's never going to change,
That's what keeps me going
Knowing I can just call your name
and your arms will open
Its all the strength I need
just knowing you love me

Just knowing you love me

Knowing that's never going to change,
That's what keeps me going
Knowing I can just call your name
and your arms will open

Knowing that's never going to change,
That's what keeps me going
Knowing I can just call your name
and your arms will open
Its all the strength I need
just knowing you love me

Just knowing you love me
Just knowing you love me
Just knowing you love me
