

Stay Gone

Jimmy Wayne

I've found peace of mind, i'm feeling good again
I'm on the other side, back among the living
Ain't a cloud in the sky
All my tears have been cried
And i can finally say

Baby baby stay
Stay right where you are
I like it this way
It's good for my heart
I haven't felt like this
In God knows how long
I know everything's gonna be okay
If you just stay gone

I still love you and i will forever
We can't hide the truth
We know each other better
When we try to make it work
We both end up hurt
It ain't supposed to be that way

Baby baby stay
Stay right where you are
I like it this way
It's good for my heart
I haven't felt like this
In God knows how long
I know everything's gonna be okay
If you just stay gone

When we try to make it work
We both end up hurt
Love ain't supposed to be that way

So baby baby stay
Stay right where you are
I like it this way
It's good for my heart
I haven't felt like this
In ooh in God knows how long
I know everything's gonna be okay
If you just stay gone

I know everything's gonna be okay
If you just stay gone
