

All I Need

JJ Heller

Don't need a thing
My good Shepherd brings me all
You are all I need

You let me catch my breath
Even in the valley of death
You are all I need

All I need to be complete
Is Your love
Your blood that covers me

You lift up my head
You provide the wine and bread
You, You are all I need

There's no need to fear
Even with my enemies here
You are all I need

All I need to be complete
Is Your love
Your blood that covers me

Goodness and mercy are following me
You're all that I need
You make a home for me
Where pastures are green as far as I see
You are all I need

All I need to be complete
Is Your love
Your blood that covers me
