

When You Come Back

JJ Heller

I don't know how to follow you without losing my way
Jesus come and take me by the hand
I don't know how to trust that you will do the things you
say
Spirit teach me how to understand

That your love can heal the wreckage of my soul
The beauty of your light shining in me

I don't know when you'll take me home to paradise with
you
The day when I will finally be free
Oh the day when you come back for me
