

## Pieces Of My Heart

JLS

How we got here, I can't explain  
But what's important is that you came  
You can take my future now, hold it in your hands  
There's no going back, tell me why you never want to  
How come, how come, I could not see?  
My heart, my heart, shuddered into pieces?  
No one, no one, could never reach me  
It only made sense when you were standing right in front of me!

Hey, do you know that you saved my life  
Cause you came and you helped me find  
All the pieces, all the pieces of my heart.  
You talked me how I can leave again,  
I didn't know all that I was missing  
All the pieces, all the pieces of my heart.
