

Need U

JMSN

I keep a picture baby, yeah
Of when my life was right, yeah
Cause it can get so crazy, yeah
Before it gets alright, yeah
And if you ask me lately, yeah
If it was worth the price, yeah
I could tell you maybe, but not quite

Cause no matter when, no matter how
You know I need you
I need you right now
Cause history grows, no matter who knows
You know I need you
And that's how it goes

You know the nights get hazy, yeah
This has become my life, yeah
And as this shit gets crazy
I try to take my time, yeah
You see the hype is fading
With every word I write, yeah
And I could say it don't phase me, yeah
But that's a lie

Cause no matter when, no matter how
You know I need you
I need you right now
Cause history grows, no matter who knows
You know I need you
And that's how it goes
