

Kiss on the Lips

Joan Jett

Feel connected
Close my eyes
Wanna touch ?
Wanna take some time to realize ?
All you really wanna know
All you really need to say
All you really gotta do
Give a little more than a kiss on the lips

Yeah

Feel sensation
From both extremes
Don't shy away from painful scenes
Are you gonna let it go ?
Are you gonna let the juices flow ?
Are you gonna let it go ?
Are you gonna stop at just a kiss on the lips ?

Source of protection
Tie up the wrist
Sign of affection
Kiss on the lips
What are you waiting for ?
It's not just a metaphor

Hey
Oh, in it deep
Where do you go from here ?
Take a chance to overcome your fear
Have you ever taken a risk ?
Have you ever taken a fist ?
Have you ever taken a risk ?
When all you ever wanted was a kiss on the lips

Lethal injection
Tie up the wrist
Sign of affection
Kiss on the lips
Source of protection
Slap on the wrist
Sign of affection
Kiss on the lips
Kiss on the lips
Kiss on the lips
Kiss on the lips
Kiss on the lips
