

Fire and Water

Joe Bonamassa

Every single day, I got a heartache comin' my way
I don't wanna say goodbye
Baby but look at the tears in my eye
I don't wanna say goodbye
Mama but look at the way you made me cry
Every way that's nice
You show you've got a heart that's made of ice

And I know

Fire and water must have made you their daughter
You've got what it takes, to make a poor man's heart break
A poor mans heart break

Baby you turn me on
But as quick as a flash your love is gone
Baby I'm gonna leave you now
But I'm gonna try to make you grieve somehow

Fire and water must have made you their daughter
You've got what it takes to make a poor man's heart break

A poor man's heart break
And my heart is breakin' too

(ahh yeah)

(alright)

I don't wanna say goodbye baby
But look at the tears you made me cry
Every way that's nice
You show you've got a heart that's made of ice
And I know

Fire and water must have made you their daughter
You've got what it takes to make a poor mans heart break

Fire, fire and water must have made you their daughter
Baby you've got what it takes to make a poor man's heart break
Heart break

Baby and my heart is breakin'
Ohh my heart is breakin'
Ohh listen
