

# Night Life

Joe Bonamassa

When the evening, evening sun goes down  
You're gonna find me somewhere hanging around, yeah  
But the night life ain't no good life  
But it is my life, yes, it is

Oh, many people just like you and me  
They be a dreaming of old used to be's  
Saying the night life ain't no good life  
Hey, but it's my life

Oh, listen to the blues  
Listen to the way they're playing  
Yeah, listen to the blues  
Listen to what they're saying

Night life, baby, is just another scene  
In this old world, world of broken dreams  
I've said that the night life ain't no good life  
Hey, but it is my life

I've said that the night life ain't no good life  
But it's my life, hey, yeah  
I've said that the night life ain't no good life, people  
But it's my life, ooh, yeah

My life, yes, it is
