

# You Love Me Back

Joe Cocker

We're gasoline and fire  
A blessing and a curse  
If you wrote us down on paper  
You'd swear we'd never work  
You'd swear we'd never work  
You're nothing like I dreamed  
Oh and everything I need

In a crazy world  
Coming all apart  
You're my cover you're my lover you're my purple heart  
When there's no one left telling me the truth  
And I feel there's nothing real there I can hold on to  
When I'm way off track  
When I hurt like that  
You love me back

Like a magical oasis  
I could drink until I drowned  
You're the answer to a question when no answers can be found  
You turn it all around  
You take away my shame  
And love me through the pain

In a crazy world  
Coming all apart  
You're my cover you're my lover you're my purple heart  
When there's no one left telling me the truth  
And I feel there's nothing real there I can hold on to  
When I'm way off track  
When I hurt like that  
You love me back

You love me back  
You make it all make sense  
You take this man  
When I don't think I can  
And make me all right again

In a crazy world  
Coming all apart  
You're my cover you're my lover you're my purple heart  
When there's no one left telling me the truth  
And I feel there's nothing real there I can hold on to  
When I'm way off track  
When I hurt like that  
You love me back
