

# We Will Survive

Joe Lynn Turner

We had some tough times  
Must have seen it all  
God knows we've weathered every storm  
Can't run for cover  
When you take the fall  
Somehow we just keep holding on  
We've got to be strong  
In each other's arms is where we belong  
We are together

Heart to heart, day by day  
All your dreams are on their way  
Hand in hand, side by side  
With this love we will survive

You make the difference  
The power's in your hands  
You know we can't run from the truth  
We'll go the distance  
Show me where you stand  
You know that I believe in you  
And we will pull through  
I need you more than I ever knew  
We are forever

Heart to heart, day by day  
All your dreams are on their way  
Hand in hand, side by side  
With this love we will survive

Heart to heart, day by day  
All your dreams are on their way  
Hand in hand, side by side  
With this love we will survive

We've come too far  
To turn back now  
Don't give up without a fight, no  
Deep inside I know somehow  
With this love we will survive

Heart to heart, day by day  
All your dreams are on their way  
Hand in hand, side by side  
With this love we will survive
