

# Feel The Fire

Joe McElderry

Down in the basement  
There's a light that shines  
Escape to the city  
Where we know we can be saved  
When we feel like this it is deep inside  
With the joy it brings then we feel alive

And it's all or nothing  
Gonna be alright  
Chasing good times  
Into into the night  
Do you feel like me  
Can you read my mind  
It's getting close  
Coz something's got me burning up inside

When you feel the fire  
Running through your veins  
When the heat gets higher  
And you can't and you can't be tamed  
Like a burning sun  
We are the chosen ones to dance  
The night dance the night  
When you dance the night with me  
(Dance with me)

Imagination  
(Dance with me)  
Can drive you wild  
(Dance with me)  
The elevation  
(Dance with you)  
Can save and take you high  
When we feel the light it is deep inside  
With the joy it brings got me starting up tonight

When you feel the fire  
Running through your veins  
When the heat gets higher  
And you can't and you can't be tamed  
Like a burning sun  
We are the chosen ones to dance  
The night dance the night  
When you dance the night with me  
(Dance with me)

When you dance the night with me

Feel the music and you can't resist  
Feel the music and you can't resist  
Feel the music and you can't resist  
Feel the music and you can't resist

When you feel the fire  
Running through your veins  
When the heat gets higher  
And you can't and you can't be tamed

Like a burning sun  
We are the chosen ones to dance  
The night dance the night  
When you dance the night with me  
(Dance with me)

When you feel the fire  
Running through your veins  
When the heat gets higher  
And you can't and you can't be tamed  
Like a burning sun  
We are the chosen ones to dance  
The night dance the night  
When you dance the night with me  
(Dance with me)
