

# Hostage

Joe Nichols

What the hell can I say girl?  
I've been waiting all day long  
To see you sitting on a bedside  
Nothing but a T-shirt on  
You know what you're doing  
So go ahead and do it

Tie me down if you want to  
Baby I'm all yours  
You got to know that I want to  
Find out what that look is for  
Your kiss feels so dangerous  
But maybe I ain't scared  
So let down your hair  
Sit me in your chair  
Go on and have your way  
And take my heart hostage  
Turn the key and lock it  
Do whatever you want, I won't stop it

We'll light a couple candles  
Put a couple shadows on the wall  
Keep doing what you're going  
'Til we've done it all  
Girl I'll stay  
Held up in this place

Tie me down if you want to  
Baby I'm all yours  
You got to know that I want to  
Find out what that look is for  
Your kiss feels so dangerous  
But maybe I ain't scared  
So let down your hair  
Sit me in your chair  
Go on and have your way  
And take my heart hostage  
Turn the key and lock it  
Do whatever you want, I won't stop it

Take my heart hostage  
Turn the key and lock it  
Do whatever you want, I won't stop it  
We can top it  
Do it all again  
Find a line and then cross it

Tie me down if you want to  
Baby I'm all yours  
You got to know that I want to  
Find out what that look is for  
Your kiss feels so dangerous  
But maybe I ain't scared  
So let down your hair  
Sit me in your chair  
Go on and have your way  
And take my heart hostage

Turn the key and lock it  
Do whatever you want, I won't stop it  
Hostage  
Turn the key and lock it  
Do whatever you want, I won't stop it
