

For Love

Joe

Can't keep my eyes off you
No No
Can't keep my mind off us
No No
You said you are feeling exclusive
And you said that you are finally ready to live

So lets take a sip to the good life
And say to hell with the bad times
So keep our eyes on this mountain
It's gonna be a hell for a climb

Let's make a toast for love
Let's pour our love for love
Hands in the air like we just don't care
Its a celebration lets do it right now for love

If we were a story what would be told
If you were a statement you would be bold
Like we are competing in the games
And we gone for the gold
Ain't no need for a pitch cause baby am soul
Eeeeh Yeah

Like an eagle sailing across the sky
Baby our love will fly
(Over anything)
(And everything)
That stands in our way baby
(That stands in our way)
Just stay with me
Together we are invincible

[Chorus]
