

# Mary Jane

Joe

De-stress  
You might as well enjoy the drink  
There's too much rolling over in the world

2 PM, breakfast in bed  
Had a long night, I was in Vegas  
At the Bellagio  
I had a sweet thing from a bar in place  
All in my brain, you're giving me a fever  
Put it in, blew it out, body so illegal  
She was so phenomenal  
Get me, you're beautiful  
You pull ups and say

[Refrain:]

I only met er once, a little marijuana  
Money real good but money bringing me more problems  
Go and do things, be my Mary Jane  
Made a touch in your light, I take it away  
Go with your little bit shorts, celebrate the moment  
Roll you up, light you up  
Show you how I own it  
My Mary, my Mary, my Mary Jane  
My my my my Mary Jane

So sexy standing in the mirror  
Come a little closer, girl I wanna tell ya  
Clothes off your body baby  
I wanna get high off your love tonight  
I want to play the naughty, can you play the last night?  
Do it over naughty, be that T and thug life  
Just let it rotate  
To my lead, everywhere I come so...

[Refrain:]

I only met er once, a little marijuana  
Money real good but money bringing me more problems  
Go and do things, be my Mary Jane  
Take my mind off the stress and the strain  
Go with your little bit shorts, celebrate the moment  
Roll you up, light you up  
Show you how I own it  
My Mary, my Mary, my Mary Jane  
My my my my Mary Jane

I light it up and let it out slow  
I'm gon measure up  
Nothing beats this feeling I know  
Except the greatest love  
One for now and one for the road  
Til I come touch er up  
When this gonna end I don't know  
But now I'm in love with my slow

[Refrain:]

I only met er once, a little marijuana  
Money real good but money bringing me more problems

Go and do things, be my Mary Jane  
Take my mind off the stress and the strain  
Go with your little bit shorts, celebrate the moment  
Roll you up, light you up  
Show you how I own it  
My Mary, my Mary, my Mary Jane  
My my my my Mary Jane

Light it up, pass it around  
Burn it up baby, then blow it up
