You wanna know things but you never even listen
I gotta do this type of thing if you're not in it
From the moment you were trippin'
What it was is what it isn't now
Please don't go on about
Bottlin' up the doubt
But now its all I'm sippin'
Flllin' up on whatcha thinkin' yeah
You gotta go so in your head you build a picture
A broken heart and maybe a little bit bigger
Man you fucked me up for nothin'
They say everyone is someone to somethin' yeah
Heart on this sleeve for this love binge
Just take it or leave it
Just take it or leave it
God damn you do it so easy yeah

Ooooooooooh
Its pullin' teeth just to forget
Youuuuuuuuu
I haven't really ever slept
Ooooooooooh
Its all them secrets that you
Kept kept kept kept kept
From meeee

So let me know if you're ever gonna visit
Just remember that it's both of us that did it
All the distance got me trippin'
Other boys got your attention
Yeah yeah yeah yeah yeah
Wooiin' your heart like a movie
Watch you like a re-run
Forgettin' where you came from
What is love if you never fall up in it?
Stop and start til you break it all apart
Every minute's a disaster
And the moments that come after yeah
I'm pullin' teeth just to catch you, baby
Hello I'm busy, I guess it's that easy

Ooooooooooh
Its pullin' teeth just to forget
Youuuuuuuuu
I haven't really ever slept
Ooooooooooh
Its all them secrets that you
Kept kept kept kept kept
From meeee

You only act like you know me
The moment you're lonely
Now our true colors are showin'
Why do we keep goin'?
(watch you like a re-run, forgettin' where you came from)

So let me know if you're ever gonna visit

Just remember that it's both of us that did it
All the distance got me trippin'
Other boys got your attention
Yeah yeah yeah yeah yeah
Lonely, lonely, lonely
Now our true colors are showin'
Why do we keep goin'?
Wooiin' your heart like a movie
(watch you like a re-run, forgettin' where you came from)

Ooooooooooh
Its pullin' teeth just to forget
Youuuuuuuuu
I haven't really ever slept
Ooooooooooh
Its all them secrets that you
Kept kept kept kept kept
