

# I Don't Know Why I Love You

Joey McIntyre

I don't know why I love you  
But baby you know I do  
And it took so long to find you girl  
I'm never losing you

Go to bed mad, fuss and fight  
Wake up, make love middle of the night  
I don't understand all the things you do  
But baby I could never stay mad at you  
And I think that this could last forever

I don't know why I love you  
But baby you know I do  
And it took so long to find you girl  
I'm never losing you  
I don't know why you love me  
But baby I'm glad that you do  
And I'm wide awake to realize  
That you were meant for me  
And I was meant for you

Sometimes I think there's someone better for me  
Who says and does things perfectly  
A flawless someone warm and sweet  
Then I realize you're right next to me  
And I think that this could last forever - yeah

The story of us goes on and on  
And it's never gonna end 'cause it's much too  
strong, too strong

I was meant for you  
I don't why I, I don't why I, I don't why I love you  
but  
I I don't why I, I don't why I, I don't why I love you  
but I do
