

I Love You Song

Joey + Rory

I've been tryin' my best to think of the right thing to say
Bet I've wadded up a dozen sheets of paper and I threw 'em away
I've been rackin' my brain to say somethin' nobody's said
But the same little phrase keeps runnin' through my head
I could talk about your smile, talk about your kiss
But it all comes down to this

[Chorus:]

I love you, I love you, I love you, I love you, I love you, I l
ove you
Yeah I love you, I love you, I love you, I love you, I love you
, I love you

Now I know it ain't much but hey what else is there to say
When you're talkin' with your heart it's bound to roll out that
way
There's so many feelings I'm feelin' for you down inside
But one look in your eyes and my heart gets a little tongue tie
d
I could tell you how your name puts a smile on my face
Or I could just cut to the chase

[Chorus]

'Til my race is run
My breath is all gone
I'm gonna keep on
Singin' this song

[Chorus x2]
