

# Now That She's Gone

Joey + Rory

He don't go to bed 'til morning  
And he sleeps the day away  
His boss kept tryin' to warn him  
But he got fired the other day  
And he's been puttin' down some whiskey  
And cryin' all night long  
He's goin' down quickly  
Now that she's gone

[Chorus:]

Now that she's  
No longer here  
Oh it's like he's no longer there  
And he's drownin' in  
His own tears  
Oh and he don't even care

He loved everything about her  
A million times his friends all heard  
How he couldn't live without her  
I guess he's gonna live up to his word  
He's in a river of her memories  
And the currents just too strong  
He's goin' down quickly  
Now that she's gone

[Chorus]

He's 31 but he looks 60  
As he kneels down by her stone  
He's goin' down quickly  
Now that she's gone

And if he don't lay off that whiskey  
Heaven knows it won't be long  
He's goin' down quickly  
Now that she's gone
