

## Sweet Emmylou

Joey + Rory

Sweet Emmylou, I blew the dust off you  
You're the only one who knows what I'm going through  
and  
Like the hickory wind, he's gone again  
Sweet Emmylou

Sweet Emmylou, as the needle runs through you  
The way the pain shines through, well I know you've  
been there too  
Those Sad Melodies, Oh how they comfort me  
Sweet Emmylou

well I hate to bother you again, last time you helped  
my poor heart mend  
Then he came along  
So I put your records all away, thought happy songs was  
all I'd play  
But I was wrong... oh I was wrong

Sweet Emmylou, what are we gonna do  
It's only been a week or two, and he's found someone  
new  
Looks like it's gonna be, another night of you and me  
Sweet Emmylou

well I hate to bother you again, last time you helped  
my poor heart mend  
Then he came along So I put your records all away,  
thought happy songs was all I'd play  
But I was wrong...OH, I was wrong...
