

Better Than Real

Joey Tempest

If you're leaving me, can I come too?
I don't know what I want but I want it with you

I think I know just how you feel
Still we come this far, you can't it's better than real
I know baby that's what we are

Now how am I to touch you?
And tell you what you supposed to do

I think I know just how you feel
Still we come this far, you can't it's better than real
I know baby that's what we are

You said, kiss by a fool is bad enough
And be fooled by a kiss is even worse
And everytime I laugh is blest
It always seem to be a cursed

So if you're leaving me, can I come too?
I don't know what I want but I want it with you

I think I know just how you feel
Still we come this far, you can't it's better than real
I know baby that's what we are

I know baby that's what we are
Can I come too?
If you're leaving me, can I come too?
