## Forgiven

## **Joey Tempest**

starring at the dashboard light dont know my speed and I play the music far to loud I get lost but I dont care thats how I feel its been a while since weve stopped trying am I still holding out for the day

we can be forgiven we dont have to feel ashamed forgiven all the wicked games weve played

I dont know the state Im in or where Ive been these chemicals are wearing thin the way I feel about her now dont know for sure did I leave so shed want me more am I still holding out for the day

we can be forgiven we dont have to feel ashamed forgiven all the wicked games weve played forgiven we dont have to feel ashamed forgiven all the wicked games weve played
