

I've Almost Jack Daniels Drowned

John Anderson

It seems like the best things come easy
But they're always going too soon
I've covered the scars you left on my heart
If I don't die from these blues

And some things I never got over
I do good to just get around
And seeking relief from your memories
I've always Jack Daniels drowned

Now some days are better than others
And some days I just stumble through
This hole in my life won't let me survive
Many more nights without you

And some things I never got over
I do good to just get around
And seeking relief from your memories
I've always Jack Daniels drowned

Oh, and seeking relief from your memories
I've always Jack Daniels drowned
